

For your **safety** and **ours,**

Do not enter if you are sick or have been in contact with someone who is sick. If you or someone you have been in close contact with has tested positive, is awaiting test results, or suspects that they have been exposed within the last 14 days, please exit the building and call 815.942.6880 to request that your materials be set aside (if applicable).

Wear a face covering. Cloth face coverings must cover your mouth and nose at all times. If you are unable to wear a mask, please exit the building and call 815.942.6880 to request that your materials be set aside (if applicable). Do not mask children under 2 years old.

Maintain social distancing (minimum 6 feet apart). The markings and social distancing rules are for your safety, your new friend's safety, and the safety of our staff. If you behave in any way that undermines these safety rules, you will have to leave.

Do not share objects with persons from different households. Just like how we are keeping ourselves safe by keeping distance from each other, you must keep items away from other people. Any materials set out for your use have been sanitized ahead of time, and will be sanitized again after the program.

Wash your hands with soap and water. If you cannot wash your hands, use hand sanitizer. Frequent hand washing helps stop the spread of germs. Wet your hands with water, get soap and scrub all angles of your hands and wrists for at least 20 seconds, rinse, then dry your hands.

Cough or sneeze into a tissue or use your elbow. Wash your hands immediately. Allergies are common, but please cough or sneeze into a tissue or your elbow.

By entering this space, you acknowledge that you understand the above safety rules and agree to follow them.
